

## Syngrafii Delivers You More Revenue with Increased Customer Growth

We enable 2 or more parties to complete transactions from anywhere worldwide, removing the delays & barriers associated with in-person paper based transactions.

We are the only eSignature solution worldwide that enables users to execute an original one-time use signature onto paper, a digital document or a hybrid process while supporting an organization's security, compliance and workflow requirements.

### Market Differentiators

<b>One-Time-Use Signatures</b>	Syngrafii does not store signatures for future use
<b>Biometric Signature</b>	Syngrafii captures the speed, weight and cadence of a signature (X, Y, Z coordinates), resulting in a forensically accurate signature
<b>Paper or Digital Execution</b>	Syngrafii provides workflow options to execute an original signature onto a hard copy or digital document
<b>Live Signing</b>	Syngrafii is a live signing solution delivering the same user experience as an in-person transaction, allowing multiple users the ability to sign on 1 document at the same time from alternate locations
<b>Non-Repudiation</b>	Syngrafii can provide a transaction record that can be coupled with a video/audio interaction for evidence of the signing session
<b>Simple Integration</b>	Syngrafii integrates into an organization's existing paper or digital document process
<b>Device Agnostic</b>	Syngrafii enables users to sign transactions on any web enabled device (not device app dependant)
